Call for Papers

International Fintech Research Conference

Finance, technology, methodologies

Fintech Research Network
Politecnico di Milano
27-28 October 2022

The Conference aims to put together researchers working in all areas of Fintech (banking, asset management, insurance, payments, capital markets, internet of things) providing a multidisciplinary venue. Contributed papers are welcome in all Fintech research fields such as (but not limited to): theoretical analysis of the fintech domain, machine learning applications to finance, cryptocurrencies, digital currency, cybersecurity, network analysis in finance, blockchain technologies, peer to peer finance, big data analysis, nowcasting, text analysis.

Keynote speakers:

- Petros Dellaportas, UCL-London *Reservoir Computing for Macroeconomic Forecasting with Mixed Frequency Data*
- Leonardo Gambacorta, Bank of International Settlements, *Big techs, QR code payments and financial inclusion*
- Mario Wuethrich, ETH-Zurich *Discrimination-Free Insurance Pricing*
- David Yermack, Stern Business School, New York University *Casualties of the 2022 Crypto Meltdown*

The Conference is intended to be the first edition of an annual initiative that will be hosted by the building blocks of a large researchers/universities network.

Scientific committee: Emilio Barucci (chair), Andrea Consiglio, Stefania Corsaro, Luca Di Persio, Massimiliano Ferrara, Gianna Figà Talamanca, Paolo Giudici, Daniele Marazzina, Silvia Muzzioli.

Deadline for submitting an extended abstract/paper: August 31st, 2022.
Deadline for registration: September 30th, 2022.

Please note that, except for the social dinner, no fee is required to conference participation.
The conference is in conjunction with a **special issue** on **Digital Finance** edited by Springer (deadline December 31, 2022).
